

Contribution/Fund Investment Recommendation Form

Updated April 2021

This form is to establish or revise your fund's investment allocation. You may recommend a change to your investment allocation up to (4) times per calendar year. Please note that the default option for contributions is the **BlackRock Treasury Trust Fund (Money Market)**, unless you have designated an asset allocation. Underlying asset allocation for Pre-Set Portfolios, investment information and performance charts may be obtained at jcfny.org/investments. All investment allocations are subject to JCF's Policies and Procedures Guide, dated April 2021. For additional information, contact **Igor Musayev** at **646-843-6889** or email igor@jcfny.org.¹

ESG = Environmental, Social, and Corporate Governance (ESG) refers to three central factors in measuring the sustainability and societal impact of an investment in a company or business.

¹ Generally, equity and high-yield funds are subject to market fluctuations and may be more appropriate for Fundholders who seek long-term growth of capital to maximize the amount available for grantmaking over time. Market fluctuations may cause the value of investments held to be worth more or less than the value of the original contribution. Funds that focus on specific sectors may involve greater risk than other funds that provide greater diversification. International stocks may be subject to additional risks, including foreign exchange risk and foreign regulations. Past performance of investments does not guarantee future results.

CHOOSE ONE:

- I would like all future contributions and the fund balance to be invested in accordance with the asset allocation listed above.
- For this particular contribution, I recommend the following investment allocation, which differs from my current allocation. I understand that this may change the fund’s pre-existing investment allocation.

JCF should automatically rebalance my portfolio on a monthly basis to maintain this allocation YES NO

I understand that investments are subject to risk.
